

# Fiona the Hippo Fun Facts!

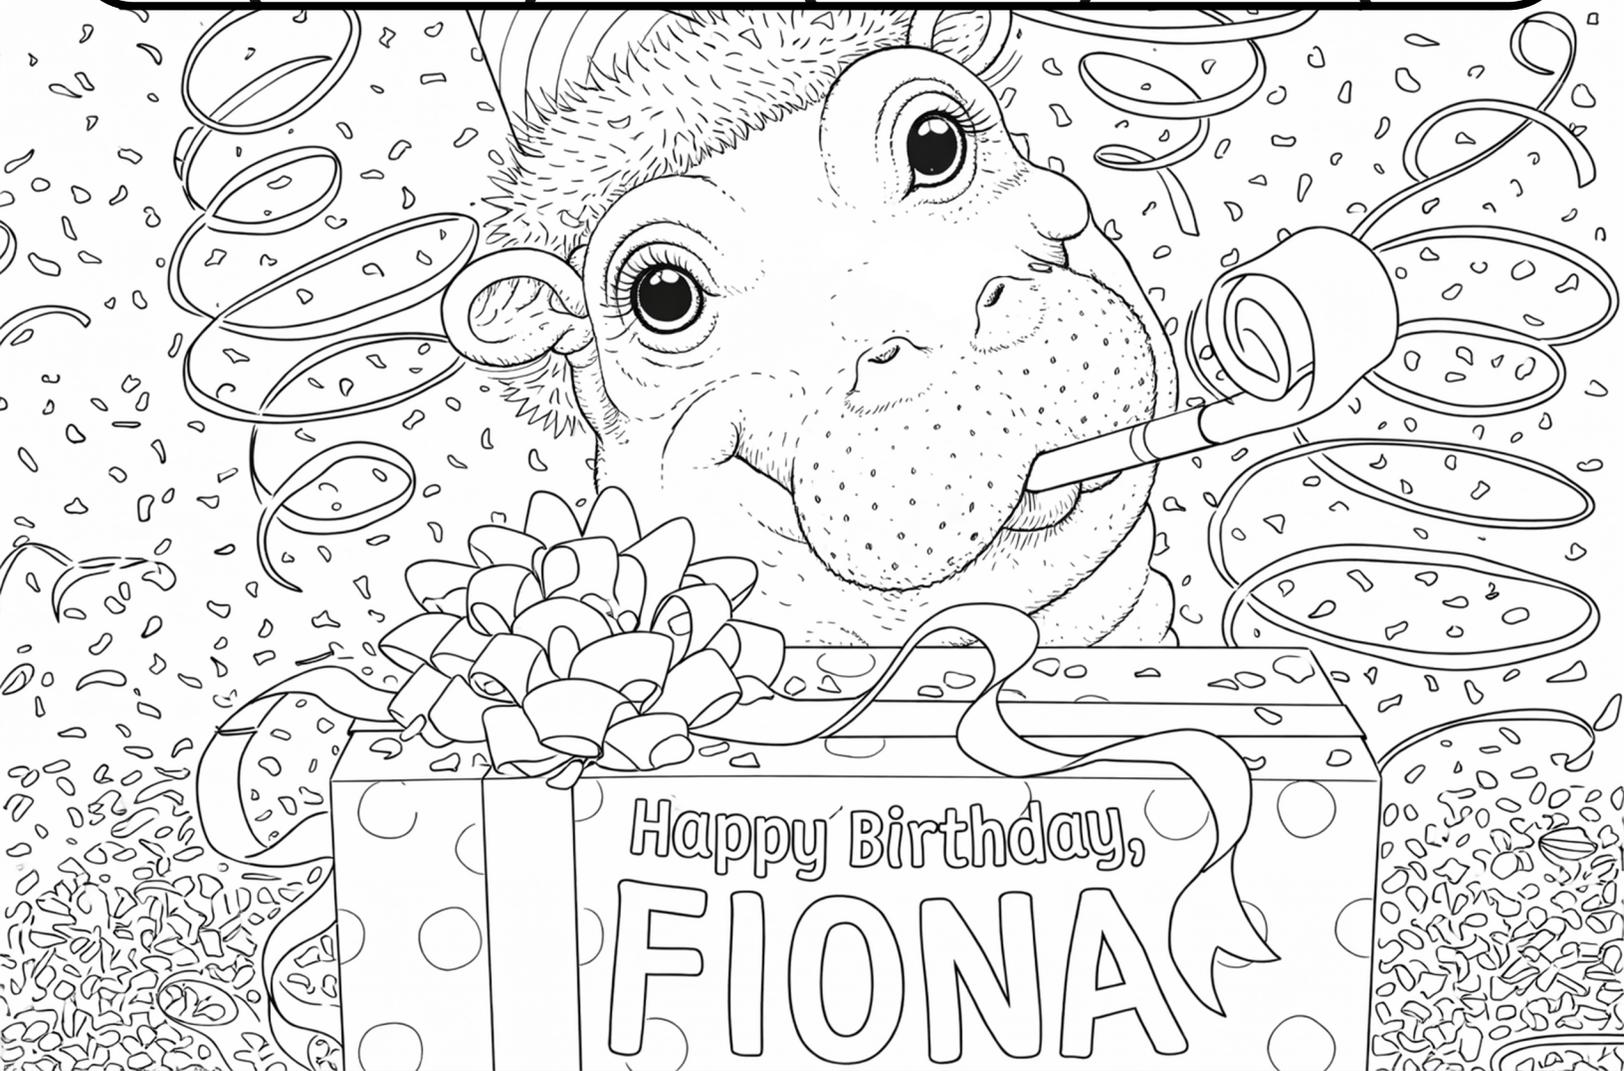

Hippos like Fiona are related to whales and dolphins, even though they look nothing alike.

Fiona's birthday is January 24, and fans celebrate it every year at the zoo.

Fiona has a baby brother named Fritz, born in 2022.

Her name comes from Princess Fiona in *Shrek* because of her cute ears.

She was born six weeks early and weighed only 29 pounds—most baby hippos weigh 55–120 pounds.
