From bestselling authors to timely topics and more, digital myCARTS fill your digital shelves with audiobooks and eBooks patrons want—before they even know they want them!

Hoopla's book experts work hard to provide carts with titles that will truly speak to your patrons. We work closely with publishers and monitor trending titles and themes to curate the best possible title selections.

How It Works

Carts are delivered to your inbox for review. You can share carts with other members of your library/system as necessary.

Some titles are available exclusively in one format. Digital myCARTS will deliver what is available.
